Your closing checklist

Congratulations!

You're almost done with the home buying and mortgage process, but there's one last step: closing.

Closing is one of the most important parts of the process—it's when you legally commit to your mortgage loan. This guide will help you prepare for closing so you can sign your papers with confidence.

Be a savvy mortgage borrower

- Know that closing is a big deal-it's the moment when you commit yourself to up to 30 years of mortgage payments.
- Prepare for your closing in advance, so you can be confident and prepared on the big day.
- Pay attention to the details at closing to make sure you are getting what you expected.
- Know you have a right to understand
 100 percent of what you are signing.
- Ask questions until you understand.
- Know that walking away at closing is better than signing documents you don't understand.

Top mistakes to avoid at closing

- Rushing. Closing on your home and mortgage is one of the most important financial commitments you'll ever make. Take all the time you need.
- Trying to make someone else happy. You are going to be the one who has to pay the mortgage every month. The only person you need to make happy is you.
- Feeling like you "should" know the answer to something, and not asking questions. Mortgages are complicated, and there's a lot of unfamiliar paperwork. When in doubt, ask!
- Silencing that little voice inside of you that says something is wrong. Trust your gut and speak up.
 Now is the time to prevent future problems.

This guide will help you prepare for closing, know what to expect, and close with confidence.

CLOSING CHECKLIST

After closing

Phew! Now that the paperwork is over, set yourself up for success as a home owner with these final steps.

1. Save important documents

You should save the entire set of documents, but mark these ones as important for future reference.

☐ HUD-1 Settlement Statement

- ☐ Truth in Lending Disclosure (TIL)
- ☐ Mortgage / Security Instrument / Deed of Trust
- □ Promissory note
- ☐ Deed, document that transfers property ownership (purchase only)
- ☐ Right to Cancel (refinance only)

2. Change your address

- Bank accounts, investment accounts, and credit card companies
- ☐ Department of Motor Vehicles and car insurance
- ☐ Cell phone company, health/life insurance, and other bills
- □ US Postal Service

3. Revise your budget and plan for future expenses

- Include Home Owners' Association (HOA) fees, and if you don't have an escrow account, property taxes and homeowner's insurance.
- Settle in to your new budget for a few months before making major home repairs or renovations.
- Set aside money each month in an emergency fund to cover essential repairs or loss of income.

4. Review your homeowner's insurance

- Obes it cover flood? Earthquake? Other disasters?
- ② Could you get a discount for having smoke alarms or if you get your car insurance with the same company?
- Could you save money by increasing your deductible?

5. Pay attention to:

- ① Changes in your monthly payment. Even if you have a fixed-rate loan, your total monthly payment will change if your taxes, mortgage insurance, or homeowner's insurance go up or down.
- Servicing changes. The "servicer" is where you send your mortgage payments, and your servicer might change. If your servicer changes, you'll get this notice in advance.

6. Watch out for:

Marketers often target new homeowners. Give yourself a chance to adjust to your new budget before applying for new credit or making large purchases.

- ① Offers for new credit cards or home equity lines of credit. If you want to opt-out of the offers, you can do so online or by calling (888) 567-8688.
- ① Offers from home improvement contractors. Not only should you wait before making major investments, but scams are common. Research a contractor's reputation and always get three quotes before choosing a contractor.
- ① Offers for "mortgage protection (life) insurance," often sent in official-looking envelopes. Most homeowners are better off with standard life insurance, which is more flexible and usually cheaper.
- ① Bi-weekly payment plans offered for a fee. A bi-weekly payment plan can be smart for people who get paid bi-weekly—you'll pay off your loan quicker and save money—but you don't have to pay for this service. You can talk to your servicer and set it up yourself.
- ① Refinance offers that don't save you money. Don't refinance too often, or fees can really add up. When considering a refinance, make sure you're saving money with a lower interest rate.
 Learn more about refinancing.
- 7. Act fast to avoid foreclosure if you are struggling to make your payments

If you're struggling to make your payments, talk to your mortgage servicer and call a housing counselor. Your mortgage servicer is required to explain what options are available to avoid foreclosure.

HUD-approved counselors are trained professionals who will help you at little or no charge to you.
